Dwight speaks on the Brownfield Conference. Flo and Dwight were trying to arrange a meeting with a reader of our grant to see why it was not approved and Flo was unable to meet with them. Flo gave a presentation on rural communities like ours, mentions that we have been trying for years to get the grant and have been unsuccessful. Dwight stated that there are revolving loans for Brownfield as well as grants. There is a great deal of possibilities that were seen at the conference. According to Flo, Michigan is ahead of everyone else in the country by creating the Brownfield Authority.

Liz asks Dwight what is your suggestion for next year? Would you go back?

Dwight states that looking at the cost, he would not go back but if there was money available to go, it would be worth it.
